May meeting cancelled

New Orleans Section will not have a general meeting in May.

Members of the section’s executive committee met on 2 February. The action item from that meeting was to prepare a business case for section activities going forward. It was due for completion on 31 March 2017.

As of 30 April, there has been no word or report from that group.

What’s going on with New Orleans section? (continued)
by Larry Iverson, Editor

Before presenting a brief report on the status of New Orleans section, your correspondent urges you turn to pages 3 and 4 for two announcements of local interest. The first of these announcements is about a networking event and opportunity to be held on Saturday 13 May at UNO.

The other event is a morning and midday event on Wednesday 17 May at the ballpark to highlight technical professions in promotion of STEM (science, technology, engineering, and mathematics) interest among grades 3–8 students. Try to make this one, too. There’s nothing like an afternoon at the ballpark and perhaps seeing a safety squeeze at home plate or, perhaps, even a suicide squeeze. You’ll also get to see what these kids are up to.

Now to the section’s affairs. Really, there’s nothing to report.

The last thing your correspondent heard was from the 2016–17 District 7 Vice President, James Young. In an email message dated 10 April, he indicated as follows:

“I am still awaiting an opportunity to meet with the board of the New Orleans Section and discuss steps to get the section more active. I firmly believe that this is a function of getting more new and younger folks involved, and interested in what ISA Sections have to offer. That is what the DLC [District Leadership Conference] will be focusing on, coming up in May. I strongly encourage New Orleans Section to send a delegation to the DLC, to participate in these discussions."

As of this writing, your correspondent cannot report on any activity in this regard.

The section’s bylaws stipulate that the end of its fiscal year—and, therefore, its operating year—is 31 May. Thus, this will be the last newsletter of this operating year. Hopefully, the section can report on its rejuvenation by late August—if not before—, when the September newsletter usually appears.
SECTION OFFICERS 2016–17

President
Jose Suarez

President-elect
vacant

Vice President
vacant

Secretary
Bill Brock
